Education

Bachelor of Information Technology (BIT)

Tribhuvan University

Expected Feb 2027

Technical Skills

Languages: Python, SQL, JavaScript

Frameworks: Django, Django REST Framework, React.js, Tailwind CSS

Databases: PostgreSQL, SQLite

Tools: Git, GitHub, Docker, Celery, Postman

Projects

Medi: AI-Powered Hospital Management System | *Django, DRF, Next.js, Scikit-learn, Celery*

2025

- Developed patient and doctor management modules supporting appointment scheduling, medical records, and role-based access control using Django REST Framework.
- Built a Decision Tree based Heart Disease Prediction Model using healthcare datasets.
- Implemented AI-powered medical report analysis using LLM API integration.
- Integrated Celery for asynchronous backend processing.
- Performed UML design, testing, documentation, and Git-based collaboration.

AI Code Reviewer | *Python, LLM APIs, Git*

2024

- Developed an automated code review tool that analyzes repository commits and code snippets to detect bugs and enforce programming best practices.
- Integrated AI language models to generate contextual code improvements, identify potential security vulnerabilities, and suggest optimizations.
- Designed an efficient backend pipeline to process code submissions and deliver detailed, actionable feedback directly to developers.

Leadership

Code for Change – Tech Conclave Organizing Team

2023 – 2024

Area Lead

- Led a team of volunteers to manage assigned event areas, ensuring smooth coordination and execution throughout the tech conclave.
- Coordinated with faculty members, organizers, and volunteers to oversee logistics, participant assistance, and on-site operations.
- Supported event planning and successfully managed crowd flow, registrations, and venue activities, contributing to a well-organized event.

Language Link

2025

Nepali Transcription Proofreading Specialist

- Proofread and validated Nepali audio transcripts by comparing recorded speech with transcribed text to ensure high accuracy, grammar, punctuation, and formatting.
- Reviewed language data used to train and improve AI speech recognition and natural language processing models, correcting transcription errors while preserving the speaker's intended meaning.
- Maintained strict quality standards, handled confidential language data, and consistently delivered accurate work within project deadlines.

Remote Transcription & Translation Services

2025

Transcription & Translation Specialist

- Recorded high-quality audio by reading assigned documents and scripts while following pronunciation and recording guidelines.
- Transcribed audio recordings into accurate written text with attention to grammar, punctuation, and formatting.
- Performed typing and translation tasks, ensuring linguistic accuracy, consistency, and adherence to project requirements.
